Professional Summary

Computer Science & Engineering student and specialized React Native Mobile Developer based in Luxor, Egypt. Passionate about building robust, high-performance, and scalable cross-platform mobile applications. Leveraging solid software engineering principles, clean code architecture, and deep computer science fundamentals to deliver exceptional user experiences.

Technical Skills

- **Mobile & UI Development:** React Native, JavaScript, HTML, CSS, Java, Software Architecture
- **Languages & CS Fundamentals:** C++, C#, JavaScript, Kotlin, Data Structures, Algorithms, Design Patterns, C/C++, Java/JavaFX, Python
- **Domain Expertise:** E-Learning, Interactive Learning, Maritime Transport, Membership Management
- **Artificial Intelligence (AI/ML):** Deep Learning, VGG16 & VGG19, AlexNet, Data Preprocessing, AI Agents
- **Databases & Tools:** Supabase, Git & GitHub, CI/CD Pipelines, CodeRabbit, Figma, Scrum/Agile

Featured Projects

SmartWholesale Network (SWN) - Graduation Project Lead Architect & Mobile Developer

Tech Stack: React Native, Node.js, Express.js, PostgreSQL, React, JWT Microservices

A digital supply chain ecosystem connecting suppliers, wholesalers, and retailers with commission-free subscriptions, automated product transfer microservices, and anti-monopoly inventory protection algorithms.

TourBuddy Platform Mobile Developer & Technical Planner

Tech Stack: React Native, Software Architecture, UI/UX, Figma, Firebase

Cross-platform mobile marketplace connecting tourists with certified guides in Egypt, featuring real-time location tracking, interactive tour scheduling, and multi-currency payments.

Physio Clinic Management System Mobile Developer

Tech Stack: React Native, Supabase, Cloud Databases, Tailwind CSS

Mobile healthcare platform simplifying electronic medical record (EMR) tracking, automated appointment scheduling, and exercise logging with real-time cloud sync.

Task Management System React Native Mobile Developer

Tech Stack: React Native, JavaScript, SQL Database, AsyncStorage, REST APIs

Productivity mobile app featuring dynamic project categorization, priority tagging, drag-and-drop workflow boards, offline caching, and real-time cloud synchronization.
