

MOHAMED AHMED

REACT NATIVE MOBILE DEVELOPER

■ Luxor, Egypt | ✉️ mohammedahmed21ali@gmail.com | 📞 +20 1013374680
■ GitHub: github.com/Mohammed0Ahmed0Mohammed | 📱 WhatsApp & Telegram: +201013374680

PROFESSIONAL SUMMARY

Accomplished Computer Science & Engineering student and specialized React Native Mobile Developer based in Luxor, Egypt. Demonstrated expertise in architecting and delivering high-performance, cross-platform mobile applications for iOS and Android. Adept at transforming complex business requirements into clean, maintainable code structures utilizing modern state management, REST/JWT APIs, cloud synchronization, and responsive UI design principles.

TECHNICAL CORE COMPETENCIES

Mobile Development:	React Native, Mobile Architecture, Cross-Platform UI, Component Lifecycle, AsyncStorage
Programming Languages:	JavaScript (ES6+), Java, C / C++, Python, HTML5, CSS3
CS & Architecture:	OOP, Data Structures & Algorithms, Clean Architecture, Design Patterns, RESTful APIs
Backend & Cloud:	Supabase, Node.js, Express.js, PostgreSQL, Cloud Databases, Real-Time Sync
Tools & Workflows:	Git & GitHub, CI/CD Pipelines, CodeRabbit, Figma, Scrum / Agile Methodologies

FEATURED MOBILE PROJECTS & ARCHITECTURE

SmartWholesale Network (SWN)

Graduation Project — Lead Architect & Mobile Developer

Tech Stack: React Native, Node.js, Express.js, PostgreSQL, JWT Microservices

- Architected a 3-tier B2B digital supply chain network connecting suppliers, wholesalers, and retailers in a unified ecosystem.
- Engineered a commission-free flat-rate subscription engine eliminating transaction fees across multi-tier user accounts.
- Developed an Automated Data Transfer Microservice to instantly mirror supplier catalogs to wholesale storefronts.
- Designed an Anti-Monopoly & Inventory Protection algorithm enforcing order caps and automated exception ticketing.

TourBuddy Platform

Mobile Developer & Technical Planner

Tech Stack: React Native, Firebase, UI/UX Design, Figma, REST APIs

- Built a cross-platform tourism marketplace linking international tourists with verified local guides across Egypt.
- Integrated real-time location services, interactive tour booking schedules, and multi-currency payment handling.
- Crafted custom responsive mobile components prototyped in Figma to deliver high-performance user interfaces.

Physio Clinic Management System

Mobile App Developer

Tech Stack: React Native, Supabase, Cloud Databases, Tailwind CSS

- Developed a cloud-connected healthcare mobile management application for physical therapy practices.
- Implemented secure Electronic Medical Records (EMR) tracking, treatment session logs, and automated appointment alerts.
- Utilized Supabase for real-time data synchronization and encrypted role-based access control.

Task Management System

React Native Developer

Tech Stack: React Native, JavaScript, SQL Database, AsyncStorage, REST APIs

- Designed an intuitive productivity app featuring dynamic project categorization, priority tagging, and workflow boards.
- Implemented offline data caching via AsyncStorage with automatic cloud synchronization upon connection.

EDUCATION & ACADEMIC BACKGROUND

Bachelor of Computer Science & Engineering

Luxor, Egypt

Specialization in Mobile Application Development, Software Engineering Architecture, and Computer Science Fundamentals.
